

What is Crimsafe®?

Crimsafe® is a stainless steel security mesh and frame system. It is used to secure doors, windows and outdoor areas from intruders and insects alike.

From a distance, it looks like flyscreen. And it does the same job of keeping your house cool in Summer while keeping mosquitoes out. But Crimsafe® is unlike any other flyscreen you've ever seen, because it makes your home virtually impenetrable to thieves.

Two special features mean it beats more burglars...

- 1. The mesh is 'screw-clamped' so it can't be kicked out**
- 2. Crimsafe®'s mesh is 0.9mm thick and precisely woven, so every strand backs up the others.**

Balustrade and Pool Fencing

We can give you a great alternative for balustrading and pool fencing. Our Licensees utilise the latest in terrace balustrading systems, giving a robust and attractive fencing alternative to the standard bars and glass systems other manufacturers supply.

Custom-built to your specific needs, our balustrade product is a completely engineered system that complies with the Building Code of Australia, and passes AS/NZS 1170.1: 2002 Structural design actions - Permanent, imposed and other actions.

And our pool fencing product is also a completely engineered system, complying with AS1926.1 - 1993: Swimming pool safety - Fencing for swimming pools.

Visit the Crimsafe website today to find out more information about their products and services
