

Today's Homes and Lifestyle

Forde, a place like never before.

In 2004 the ACT's Land Development Agency, through a nationwide expression of interest campaign, sought developers with the necessary skills and resources to become a Joint Venture Partner with LDA for the development of a benchmark residential community at Forde in Gungahlin, the ACT's major growth area. The site has a total area of 129Ha and will accommodate over 1,000 dwellings.

Canberra Investment Corporation have joined forces with Delfin Lend Lease to deliver Forde, bringing together the best of Canberra's local development expertise and the experience and resources of one of Australia's most respected developers of masterplanned communities.

Today's Homes and Lifestyle will be building a number of homes in the new community, namely, the latest addition to our Custom Home range 'The Sereno'.

This exquisite architecturally designed home comprises 3 bedrooms, with the master bed having a generous walk in robe and ensuite, a multipurpose room, informal living and meals, PC alcove, single car garage and alfresco living.

'The Sereno' is leading edge innovative design, showcasing spacious flow through living areas.

Gungahlin is the major growth area in the ACT and the development of the new community of Forde will create the new standard for residential living in Canberra.
