

Perpetual Water – Home™

Grey Water Purification System

Enjoy Restriction Free Water | **On Tap**

Award Winning Company

Perpetual Water is an innovative Australian company that has perfected a grey water purification system that treats household water to the highest quality – making it safe to be used again and again.

Our world first treatment process is called Active Adsorption Filtration™, which has been described as “the first” of the next generation water purification systems.

Perpetual Water is a multi award winning company, that has received significant financial assistance from the Federal and ACT Governments.

Perpetual Water Saving Australia's Water

MOST OF THE WATER WE WATCH FLOW DOWN THE DRAIN EVERY DAY IS SAFE TO REUSE ONCE IT IS PROPERLY TREATED AND PURIFIED. KNOWN AS GREY WATER, IT IS THE WATER THAT COMES FROM THE SHOWER, BATH, CLOTHES WASHING MACHINE, HAND BASIN AND LAUNDRY TUB*.

The average family discharges about 600 litres of this precious water to the sewer each day. That's around 220,000 litres of water per year.

Left untreated, this water contains very high levels of bacteria, soap and other contaminants that can harm your health and damage your garden. It will quickly breed bacteria, smell bad and damage the environment.

Proper treatment is critical if you want to harness the long term benefits of this valuable resource without compromising your family's health or the environment.

* Toilet and kitchen waste is not suitable for treatment

How the Perpetual Water - Home™ Works

Used water exits the house into a small in-ground tank.

It is then pumped through the Perpetual Water - Home™ grey water purification system where it is filtered and cleaned to the highest standard.

The clean water can then be safely stored in your holding tank – on tap as an endless supply of perpetual water.

The Perpetual Water - Home™ runs itself and provides you with clean, restriction-free water day in, day out. The intelligent automation system operates with the touch of a button.

There is no need to get your hands dirty as your Perpetual Water - Home™ is self-cleaning. In the unlikely event of a fault, the system will automatically shut down and divert incoming water to sewer - giving you added peace of mind.

ABUNDANT WATER WITH PERPETUAL WATER

Remember the time when we could all use water without feeling guilty? These days everyone says, "It's never going to be the way it used to be."

ENJOY YOUR LIFESTYLE AGAIN

The Perpetual Water - Home™ puts you back in control. Now there is no need to worry about water restrictions to enjoy your garden, your home and your lifestyle.

PROTECT YOUR INVESTMENT

Establishing and maintaining a garden takes time and money. With long term water restrictions, no one wants to see the hard work they put into their garden wasted. Having an abundant water supply day in and day out is essential to protect this investment.

HOW CAN I REUSE MY TREATED PERPETUAL WATER?*

* Note – actual permitted use varies between states. Perpetual Water is committed to the responsible use of water.

Why choose the
Perpetual Water – Home™?

GET RESTRICTION FREE WATER ON TAP

protect your investment and enjoy your home.

CHOOSE SAFE, PURE WATER

don't compromise your family's health, or the long term health of your garden.
