

When selecting the materials for our new display home in Forde, we chose to use Austral Bricks 'Urban One' and 'Elements' brick range. The contemporary style of bricks have complemented the sleek lines and architectural design of the home.

Warm. Sophisticated. Stylish. That's how designers are describing Austral Bricks exciting new Urban One series. Their seven neutral colours (from pale Almond to rich Chocolate) are the perfect complement to contemporary designs. Use Urban One for an overall monochromatic appearance, or harmonise with feature materials such as stone, timber or render. You'll love the timeless look of Urban One.

Neutral colours are so versatile. The soft, subtle colours of Urban One create the perfect backdrop to feature walling materials such as Elements Series glazed bricks, render, timber and stone. Urban One colours also blend beautifully with each other. And being kiln fired, they are colourfast, low maintenance and will last a lifetime.

Silver - Urban One Range

Pale and interesting, Silver will add a sparkle to set off the architectural features of your new home.

The Elements Series are an impressive and innovative architectural range. Their beautifully glazed faces will impart a shimmering, silk-like finish and subtle sheen to your project. These are bricks as you have never seen them before. Elements Series bricks look sensational on their own, or accented with conventional bricks or other walling materials such as render, timber and steel.

Graphite - Elements Range

Graphite's beautifully soft, deep black glaze varies between matte and satin, adding texture and interest to any wall.
